Best Brides AND FUNCTIONS 2012

February is known as the month of love, with Valentine's day on the 14th and as 2012 is also a leap year, this February has one extra day!

In some places, tradition dictates the 29th of February is the only day of any year on which a woman can propose to a man... so there's no better time to bring you the best the Bay has to offer for your forthcoming nuptials (providing he says yes of course).

From the perfect setting to fabulous bouquets, creative photographers to organised co-ordinators, there's no time like the present to start your wedding planning.

The Bridal Fair at Le Domaine in February and Die Burger/Riverside Hall Bridal Fair in March are ideal opportunities to view some of the Bay's wedding service providers and take advantage of the many discounts they'll have on offer.

Plus, ladies and gents, the feature on *Favourite Valentine Treats* should offer some romantic inspiration to help create the perfect mood for you to pop the big question!

Careful, considered planning is the key to a spectacular wedding. Try to be creative but remember to control your budget. And most importantly brides and grooms, enjoy your big day!

Go GREEN with Classic Glass

A green business, striving to encourage people to support green initiatives!

We make glasses, vases, candle holders, serviette rings and so much more from recycled glass and cater for weddings and functions, which are also now rapidly going green!

Using sandblasting, we add that special touch to personalized and novelty glass gifts for any green occasion.
